* For definition of *Registration County*, see note (*) at foot of the first page of this Division (p. 327).

† The *Educational* Census gives the number of male children *belonging to schools* in the Registration County of Wilts as 16,965.

Note.—In the present Tables the Occupations are arranged according to the principle of classification adopted in the preceding Summary. The Roman Numerals and the other figures in the Column headed "Occupations" indicate the numbers of the several Classes and Sub-classes to which the various branches of labour have been referred. When a Class or Sub-class is inapplicable to both Sexes, it occurs only in the Tables for the sex to which it is appropriate.

The Table is read thus:—In Wilts there were returned 356 Clergymen, of whom 10 were aged 20 and under 25 years, 44 aged 25 and under 30 years, 47 aged 30 and under 35 years, and so on. *See* Class III. Sub-class 1.

* The "Sons," "Grandsons," "Brothers," and "Nephews," (not otherwise described,) of Farmers and of Graziers, being 15 years of age and upwards, and resident on the farm, &c. are separately returned in Class IX. in connexion with Agriculture, as they are usually engaged in the business of the farm, &c.; those *under* 15 years are returned as children simply, or as scholars, in Class V. All labourers in agriculture (except Shepherds) not living in the farmhouses are returned under the head "Agricultural Labourer (out-door);" those living in the house of the farmer are classed under "Farm Servant (in-door)," including, among others, Waggoner, Carter, Farmer's Groom, and General Servant.

Note.—Apprentices, assistants, and other persons employed subordinately in trades, are returned with their employers,—an arrangement which will account for many young persons being referred to occupations usually followed by adults. Superannuated persons, and persons described as *retired,* are classed with their former occupation when it is stated. In the same manner, prisoners, paupers, and other inmates of public institutions, when described according to their ordinary employment, are referred to specific occupations; those not so described are returned in Class XVII.

Note.—Apprentices, assistants, and other persons employed subordinately in trades, are returned with their employers,—an arrangement which will account for many young persons being referred to occupations usually followed by adults. Widows often carry on the businesses of their deceased husbands, and are hence returned under occupations not commonly followed by women. The "Wives" of "Innkeepers," "Beershop-keepers," "Shoemakers," "Shopkeepers," "Butchers," "Farmers," are specifically returned in the Table, as they are generally engaged in the same business as their husbands.

* The *Educational* Census gives the number of female children *belonging to schools* in the Registration County of Wilts as 15,906.

EMPLOYERS (WITH NUMBER OF MEN).

DIVISION V.—SOUTH-WESTERN COUNTIES.

*** This Table includes those persons *only*, who, in the Householders' Schedules, stated themselves to be *Masters*, in conformity with an instruction printed on every Schedule. Many employers of work-people,—in some trades nearly the whole number,—omitted to supply the required information, and were, in consequence, not distinguishable from journeymen. The present return, therefore, although including all who described themselves as masters, is very incomplete; but the facts are sufficiently numerous to enable deductions to be drawn as to the number of hands employed by masters in particular trades, as carried on in the South-Western Counties. For the whole number of persons engaged in special branches of labour see the preceding Tables.

* The number of Farmers appearing in this series of Tables will not agree with the number as returned in the Occupation Tables for the same localities, the difference being caused partly by the omission of all such Farmers as made no return respecting either the acreage of their farms or number of men employed, and partly by the fact that in the Occupation Tables, persons who had *formerly* been Farmers, but who at the time of the Census had retired from business, are referred to their former occupation. On the other hand, a certain number of persons who, besides being engaged in farming, carried on some other business, are here included amongst "Farmers," while in the Tables of Occupations they are referred to that other business, as their chief pursuit. The secondary occupations of Farmers will be found in a general Table, for which, and for further explanation of this return, see Report.

Note.—The Table read *vertically* from the top shows that 6 *Labourers* were returned as employed on each of 2 farms or holdings of 10 and under 20 acres, on each of 4 farms of 20 and under 30 acres, on each of 7 farms of 30 and under 40 acres, and on each of 6 farms of 40 and under 50 acres. Read *horizontally*, the Table shows that of 4,720 Farmers of 100 and under 150 acres each, 585 returned themselves as employing each 1 man, 991 as employing each 2 men, 832 as employing each 3 men.

Where the area of cultivated land exceeds 2000 acres, the precise Acreage will be found upon reference to the notes under Counties; and where the Labourers returned exceed 59 the precise numbers are stated in all cases.

The above numbers are exclusive of 1,770 women and children also employed as Labourers on farms.

* The *Registration Counties* consist of groups of entire Registration Districts; which Districts are, in general, identical with the Poor Law Unions. As the principle has been adopted of placing a District or Union which extends into more than one County with the County in which either the principal town or the greater part of the population is located, the limits of the Registration Counties differ more or less from the boundaries of the Counties proper, as shown in "Population Tables.—I. Numbers of the Inhabitants."

† The *Districts* are collections of contiguous Parishes or Places, combined for purposes connected with the Registration of Births, Deaths, and Marriages; and are generally identical with the Poor Law Unions of the same names. For the Parishes and Places comprised in each District or Union, *see* "Population Tables.—I. Numbers of the Inhabitants." The Districts are arranged topographically under the Registration Counties, and are numbered consecutively from 1 to 623, commencing with the Metropolitan Districts, Division I.

* For definition of *Registration County*, see note (*) at the foot of the first page of this Division, p. 425.

The Table is read thus:—In Division VI.—West Midland Counties, there were *unmarried* 656,040 *males*, of whom 382,606 were under 15 years of age,—104,305 aged 15 and under 20 years,—74,245 aged 20 and under 25 years,—and so on; and 642,296 *females*, of whom 380,759 were under 15 years of age,—101,567 aged 15 and under 20 years,—and so on. There were of *married* persons, 359,154 *Husbands*, 515 under 20 years of age,—21,470 aged 20 and under 25 years,—and so on; and 362,028 *Wives*, 2,744 under 20 years of age,—33,579 aged 20 and under 25 years,—and so on. And there were of *widowed* persons, 39,281 *Widowers*, 11 under 20 years of age,—271 aged 20 and under 25 years,—and so on; and 74,131 *Widows*, 36 under 20 years,—485 aged 20 and under 25 years,—and so on. The difference between the number of Husbands and of Wives arises from married couples being apart, and either the Husband or the Wife absent from the Division on the night of March 30th, 1851.

Note.—In the few instances in which persons described as married have been returned at any age *under* 15, they have been classified with the persons *aged* 15 and under 20 years.

† The *Educational* Census gives the number of male children *belonging to Schools* in the Registration County of Gloucester as 27,701.

Note.—In the present Tables the Occupations are arranged according to the principle of classification adopted in the preceding Summary. The Roman Numerals and the other figures in the Column headed "Occupations" indicate the numbers of the several Classes and Sub-classes to which the various branches of labour have been referred. When a Class or Sub-class is inapplicable to both Sexes, it occurs only in the Tables for the sex to which it is appropriate.

The Table is read thus:—In Gloucestershire there were returned 605 Clergymen, of whom 19 were aged 20 and under 25 years, 84 aged 25 and under 30 years, 94 aged 30 and under 35 years, 65 aged 35 and under 40 years, and so on. *See* Class III. Sub-class 1.

Note.—Apprentices, assistants, and other persons employed subordinately in trades, are returned with their employers,—an arrangement which will account for many young ...rsons being referred to occupations usually followed by adults. Widows often carry on the businesses of their deceased husbands, and are hence returned under occupations ...t commonly followed by women. The "Wives" of "Innkeepers," "Beershop-keepers," "Shoemakers," "Shopkeepers," "Butchers," "Farmers," are specifically returned in ...e Table, as they are generally engaged in the same business as their husbands.

EMPLOYERS (WITH NUMBER OF MEN).

DIVISION VI.—WEST-MIDLAND COUNTIES.

*** This Table includes those persons *only*, who, in the Householders' Schedules, stated themselves to be *Masters*, in conformity with an instruction printed on every Schedule. Many employers of work-people,—in some trades nearly the whole number,—omitted to supply the required information, and were, in consequence, not distinguishable from journeymen. The present return, therefore, although including all who described themselves as masters, is very incomplete; but the facts are sufficiently numerous to enable deductions to be drawn as to the number of hands employed by masters in particular trades, as carried on in the West-Midland Counties. For the whole number of persons engaged in special branches of labour see the preceding Tables.

SIZE OF FARMS OR HOLDINGS.

* The number of Farmers appearing in this series of Tables will not agree with the number as returned in the Occupation Tables for the same localities, the difference being caused partly by the omission of all such Farmers as made no return respecting either the acreage of their farms or number of men employed, and partly by the fact that in the Occupation Tables, persons who had *formerly* been Farmers, but who at the time of the Census had retired from business, are referred to their former occupation. On the other hand, a certain number of persons who, besides being engaged in farming, carried on some other business, are here included amongst "Farmers," while in the Tables of Occupations they are referred to that other business, as their chief pursuit. The secondary occupations of Farmers will be found in a general Table, for which, and for further explanation of this Return, see Report.

Note.—The Table read *vertically* from the top shows that 6 *Labourers* were returned as employed on 1 farm or holding of 5 and under 10 acres, on each of 3 farms of 10 and under 20 acres, on each of 2 farms of 20 and under 30 acres, and on each of 2 farms of 30 and under 40 acres. Read *horizontally*, the Table shows that of 3,376 Farmers of 100 and under 150 acres, 591 returned themselves as employing each 1 man, 892 as employing each 2 men, 693 as employing each 3 men.

Where the Labourers returned exceed 59 the precise numbers will be found upon reference to the notes under Counties.

The above numbers are exclusive of 836 women and children also employed as Labourers on farms.
